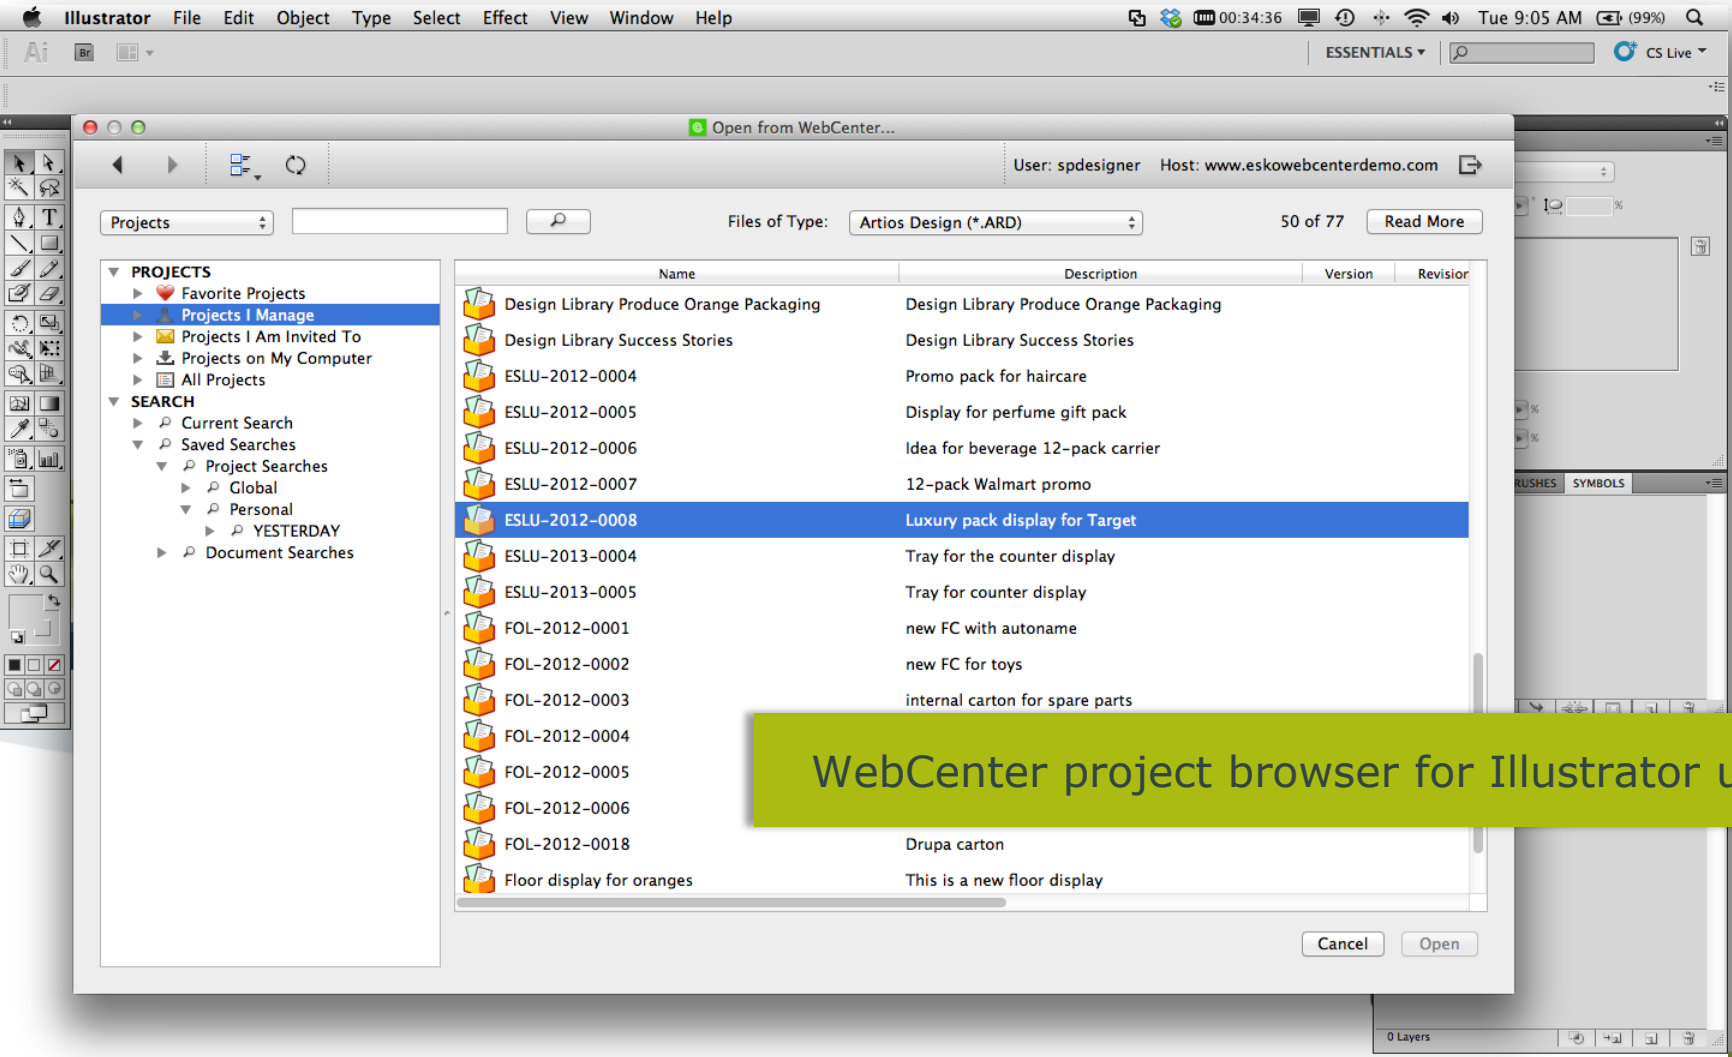
WebCenter Connector 12.1.2

What's New?

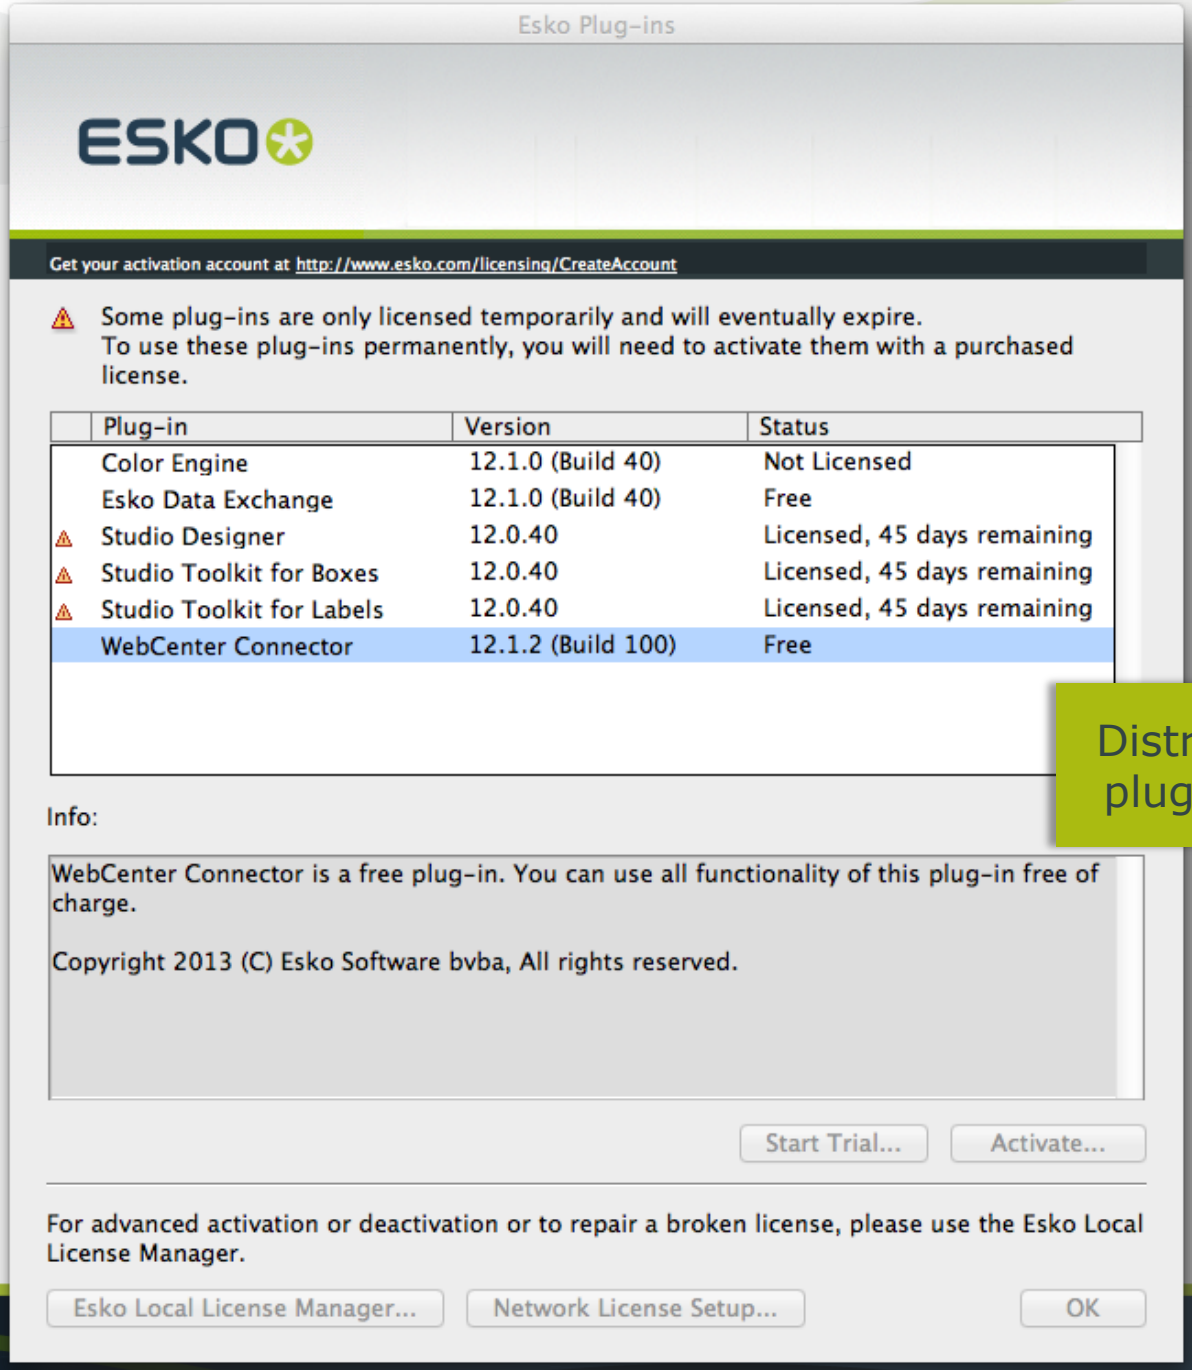
December 2013

Richard Deroo – Product Manager, Structural Design

What is the WebCenter Connector?



WebCenter project browser for Illustrator users



Distributed as a free* plug-in for Illustrator

*Editor access or concurrent user license required

What does the WebCenter Connector Do?

Completes the CAD-graphics round trip workflow for customers moving to an ArtiosCAD Enterprise solution

Allows the graphic designer (Illustrator user) to access and open structural design files directly within a WebCenter project

Allows the graphic designer (Illustrator user) to save the artwork (normalized PDF) directly to a WebCenter project

The Value Proposition

1. Saves time by eliminating the need to log into WebCenter and download the structural asset

2. More control of their assets by eliminating the need to create temporary “disk files” before WebCenter download & upload

3. Be assured the graphic designer is using the latest version of the structural file with version control in WebCenter

4. File asset and database security using Editor Access log-in

Plugins for **Adobe® Illustrator®**

Esko Data Exchange 12.1 (CS5, CS5.5, CS6 en CC 17.0)
