Please contact your local Esko CAD support if you have any questions. In the U.S., this number is (877) 363 4091.

Problem Fixes

	Customer reported fixes
ACAD-5505	Canvas default settings are ignored

	Important internal fixes
ACAD-5405	Can't D&D move, copy or link a doc to a task which has a specified folder
ACAD-5493	Incorrect slash correction (backslash vs forward slash) in WC url is not saved
ACAD-5501	Can't copy data from attributes or other text fields in the database information dialog
ACAD-5612	Bug in ATC 16.1.1 Browser Settings:
ACAD-5625	Artios – After saving files menu options are greyed out.

Important Notes for All Users

- ArtiosCAD Enterprise client and WebCenter interoperability:
  - In order to open a task in WebCenter, view and manage a checklist and drag & drop a document to a task with a folder, WebCenter 18 **must** be used in tandem with ArtiosCAD Enterprise 18.

  - The ArtiosCAD Enterprise 16.1.1 client is forward compatible with WebCenter 18, except functionality provided in WebCenter 18 may not be available to ArtiosCAD Enterprise 16.1.1
  - The ArtiosCAD Enterprise 18 client will be backward compatible with WebCenter 16.1.1 except for features provided by WebCenter 18.
- Flexnet is the only licensing system utilized in ArtiosCAD enterprise 18. Users must be prepared to convert the licensing from the hardware key, Sentinel LM or Elan LM to Flexnet if they are upgrading from ArtiosCAD 7.
- **If the deployed licensing for ArtiosCAD is a network license, the license server *must* be updated with the new system controller provided on the installation media.**

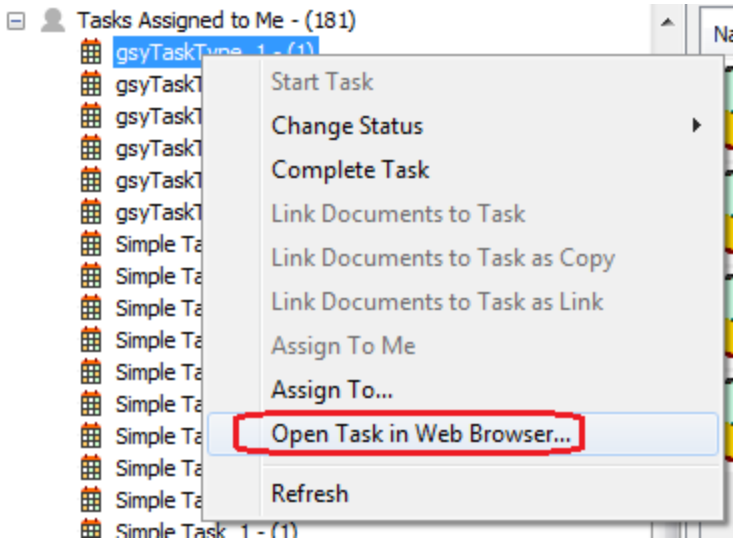
ArtiosCAD Enterprise 16.1 Feature Overview

Performance

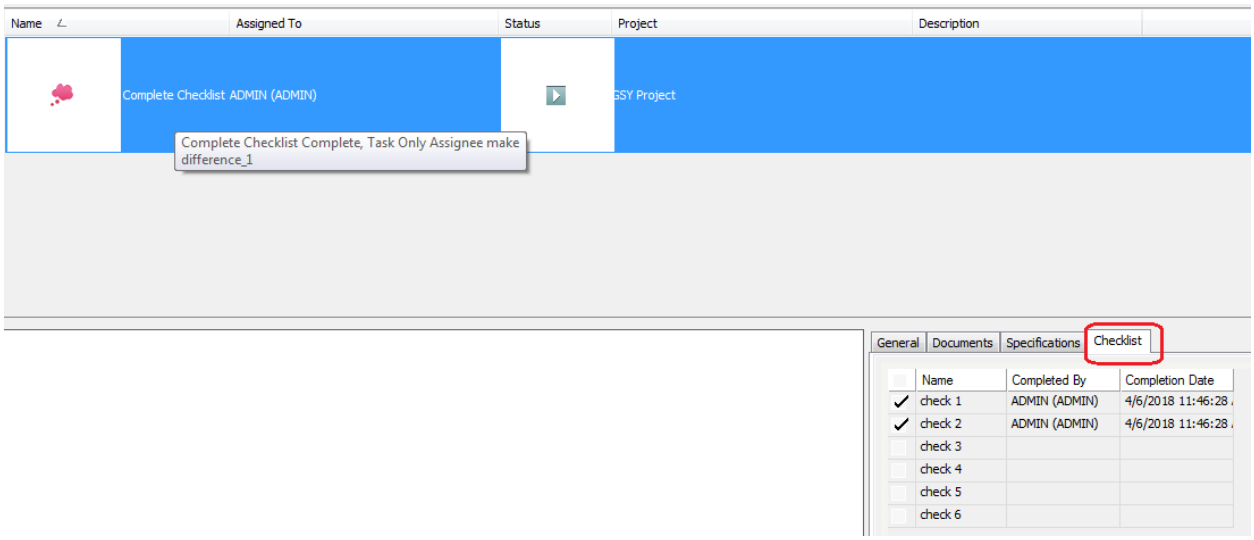
Integration

Enhancements

- A task can be directly opened in WebCenter.

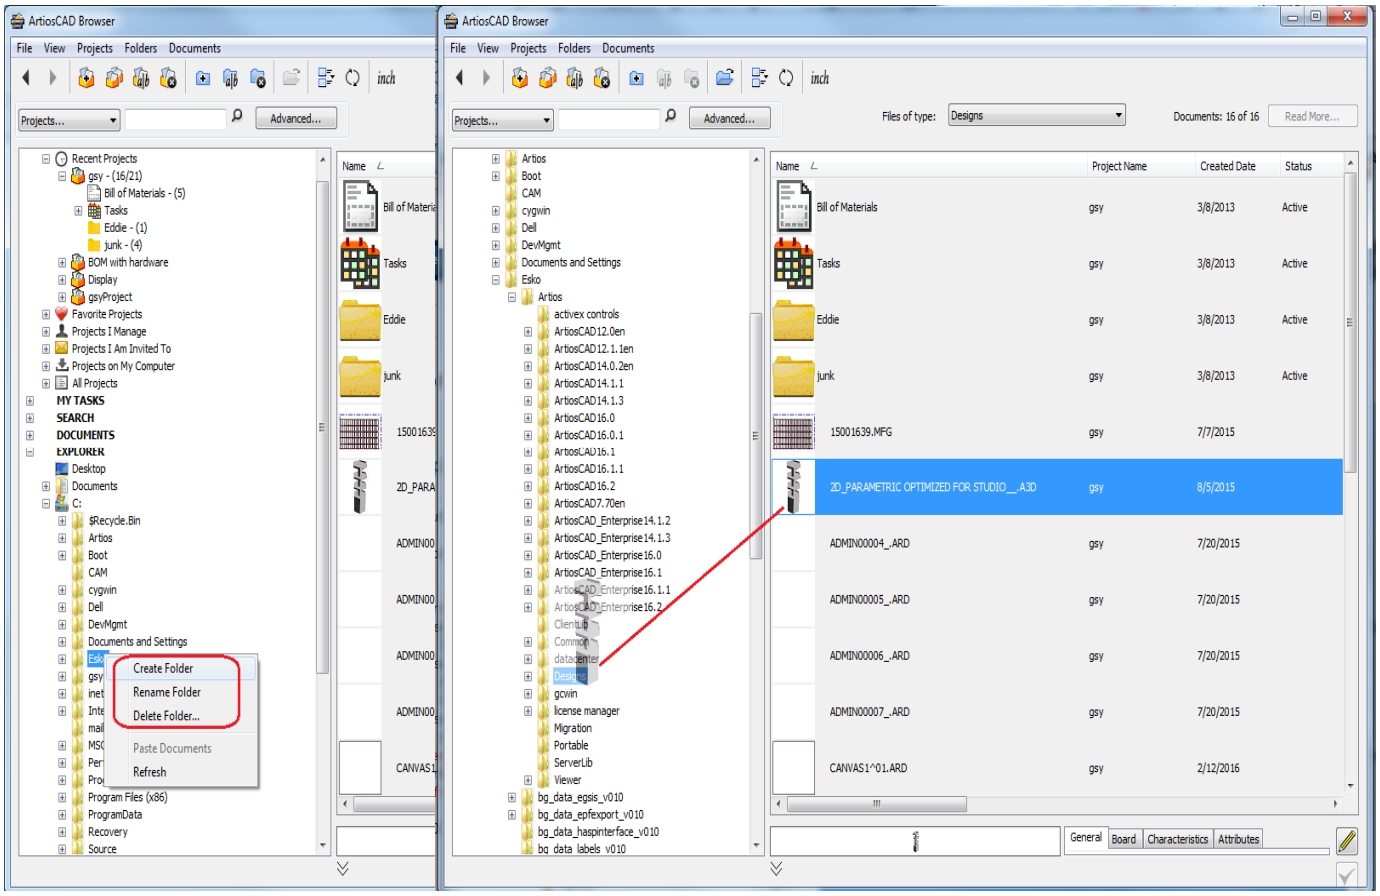


- A task checklist can now be viewed and its items can be marked as completed by a structural designer.



- The enterprise project browser has been enhanced with new modes of drag and drop.

Unmanaged:



Managed to BOM or other project nodes:
