

DeskPack 21.03

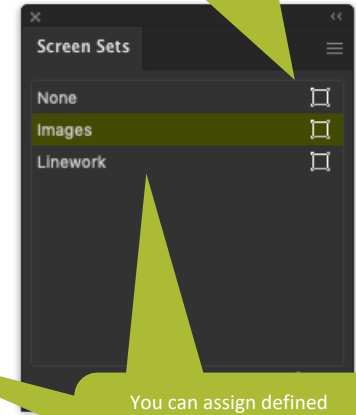

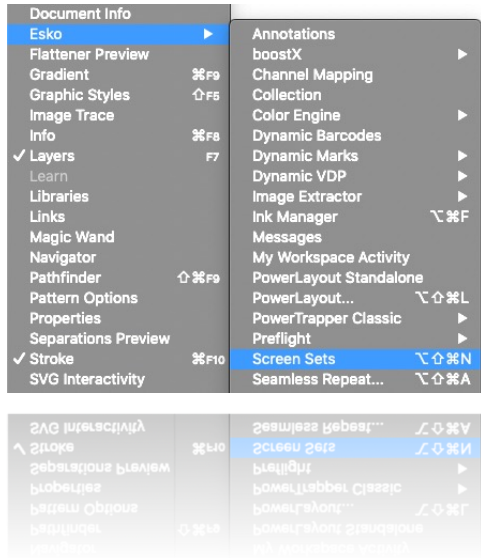

What's New

Frank Woltering

Product Manager Graphic Editing

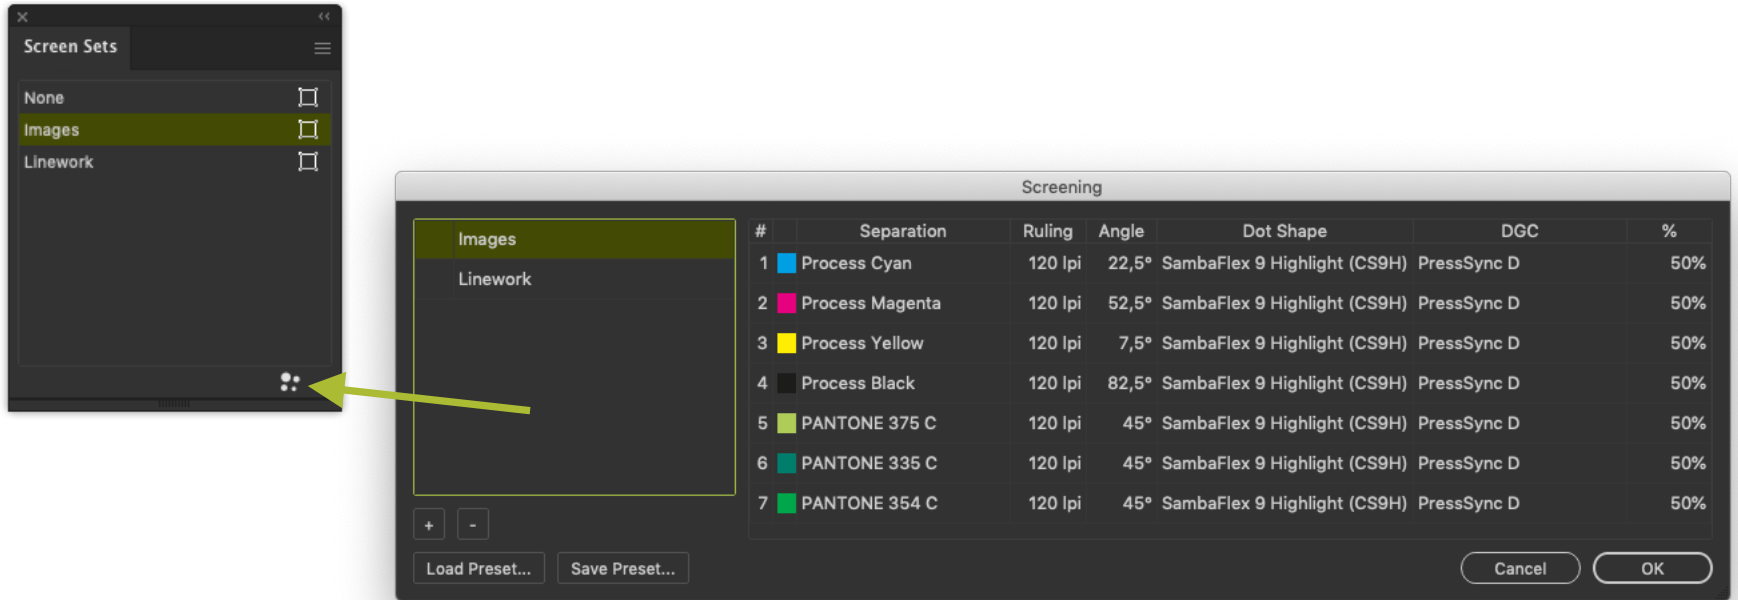

Screening (1)

- Documents in Plus-mode allow the easy assignment of screen sets to objects (object based screening)

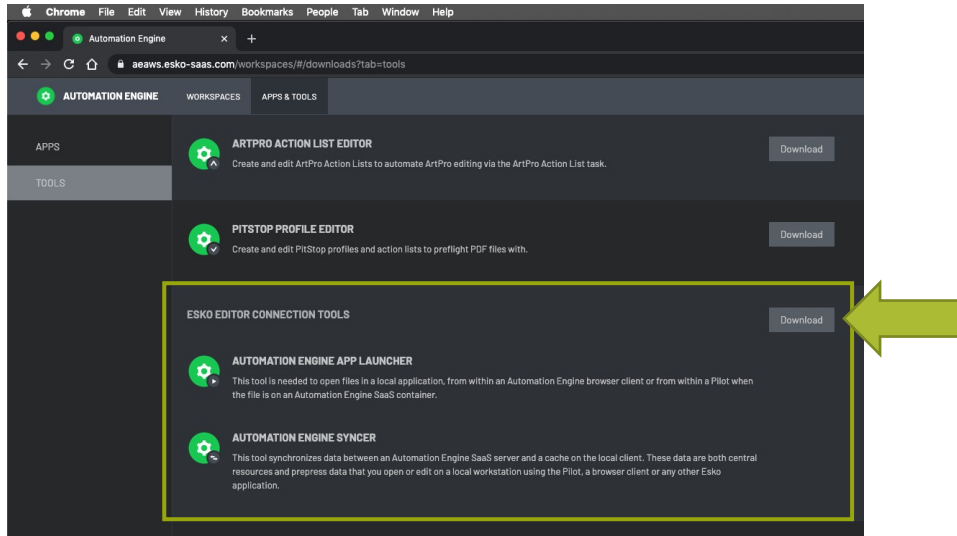

Screening (2)

- You can define, save and load screen sets in the screen set dialogue

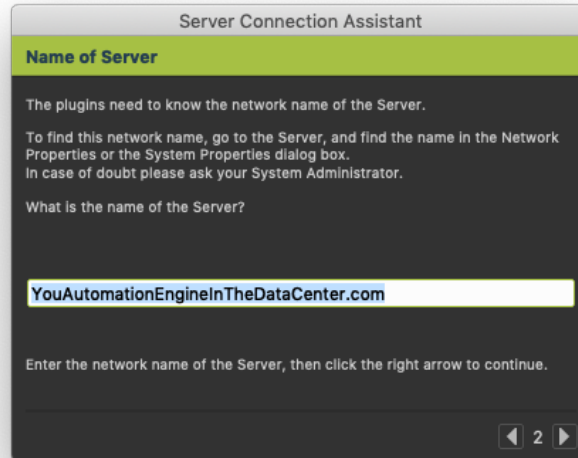

Connecting to “Automation Engine SaaS” (1)

- Connect to your Automation Engine in the data center through My Workspace to access APPS & TOOLS
 - Download and install the AUTOMATION ENGINE APP LAUNCHER and AUTOMATION ENGINE SYNCER tools

Connecting to “Automation Engine SaaS” (2)

- Using Server SetUp Assistant you can connect your Illustrator to an Automation Engine in the data center.

Connecting to “Automation Engine SaaS” (3)

When opening, placing, saving, extracting or exporting files on the Automation Engine SaaS, you get the My Workspace view

The Syncer App show details about files and resources that have been synced between your workstation and Automation Engine SaaS
