

What's New in Dynamic Content 22.11

November 9, 2022

Barcode Support

- Dynamic Barcodes now supports the EAN13 Swissmedic barcode type
- Dynamic Barcodes now supports the Codabar barcode type
- Dynamic Barcodes now supports the new GS1 Application Identifier 7011
 - New specification for defining a “Test By” date

Updated System Compatibility

- Dynamic Content now supports macOS Ventura
- Dynamic Content now supports Adobe Illustrator 27

Dynamic Subscriptions

- Dynamic subscriptions is a new cloud-based licensing model for on premise applications that simplifies global management and distribution of licenses across all sites
 - More flexibility and less IT administration than named user subscriptions
 - Better management tools than perpetual licenses
 - Online cloud portal and cloud services to manage and distribute licenses
- For detailed information, we welcome you to have a look at the Licensing What's New presentation

Licensing landscape of on-premise applications

Perpetual Licenses

Local Licenses

- ✓ Activated on client computer
- ✓ Can only be used on the computer where it is activated

Network Licenses

- ✓ Distributed by network license server on the local network
- ✓ Can be used by any computer
- ✓ Usage can not exceed #purchased licenses

Subscription Licenses

Named User Subscription

- ✓ Is a license that is linked to a user (EskoID) instead of to a computer
- ✓ User can sign in from anywhere on any computer
- ✓ 1 license is assigned to 1 user but can be reassigned to another user online

Dynamic Subscription

- ✓ A pool of licenses can be assigned to a group of users from any location (EskoID – no # limit)
- ✓ Users sign in from anywhere as long as # licenses in use does not exceed # purchased licenses
- ✓ Licenses are used and freed up dynamically
- ✓ Licenses and EskoID groups are managed online

NEW!
