

DeskPack 24.11

What's New

Balaji Rengarajan

Product Manager, Graphic Editing

DeskPack 24.11 supports macOS Sequoia & Adobe© Illustrator © CC 2025

macOS	12 (Monterey), 13 (Ventura), 14 (Sonoma), 15 (Sequoia)
Windows	Windows 10 (64-bit Pro & Enterprise), Windows 11 (64-bit Pro & Enterprise)

S2 Platform – Controlled Release

Overview:

- We are excited to announce the controlled release of the connection of our applications, including DeskPack to the S2 platform.
- This release will introduce visible UI elements within Adobe® Illustrator® that refer to S2.

Key Points:

- This is a unique opportunity to get an early look at the solution and provide valuable feedback that will help shape its development.
- Please contact Product Management for further details.

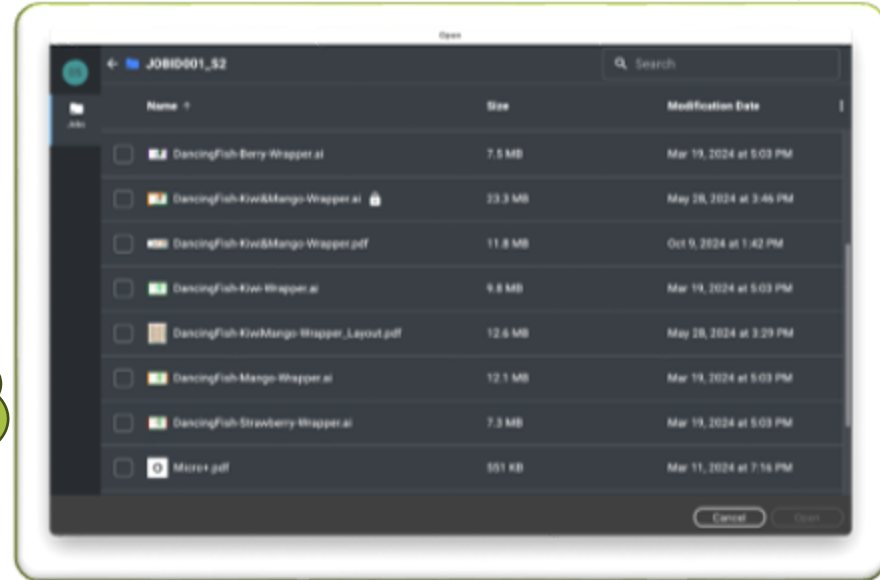

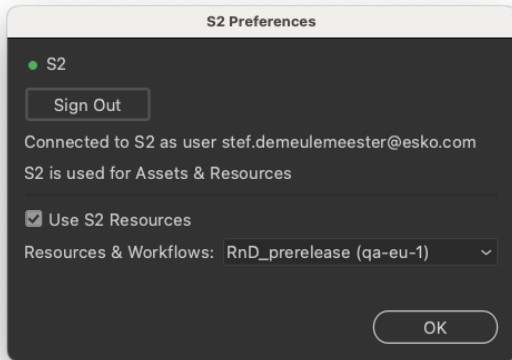

Benefits

- Enhanced functionality and user experience.
- Early access to innovative features powered by the S2 platform.

Esko S2 Centralization: Accessing Assets within DeskPack

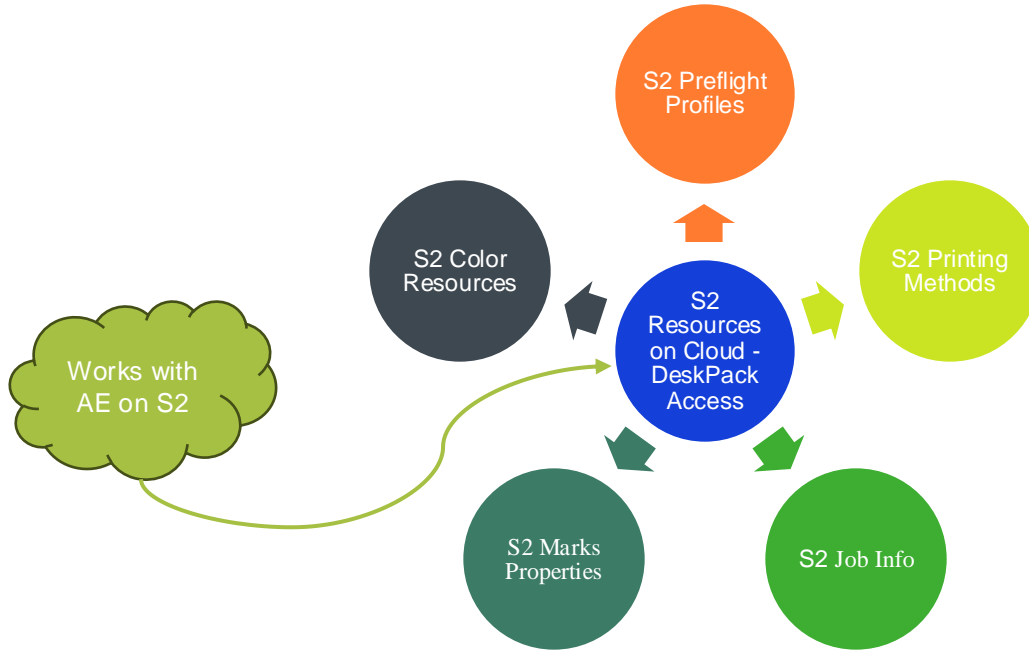

- **Upload and Store** your assets on Esko S2
- **Share** internally and externally
- Not just across **other users**
- But also, with **other Esko applications**

S2 access with DeskPack within Adobe Illustrator eliminates the need to switch between platforms, streamlining the workflow by providing real-time, bi-directional access to cloud-stored assets.

Esko S2 Centralization: Accessing Resources within DeskPack
