Pack Proof 23.03 – New features

Proof Server 23.0 – Fiery XF 7.3.3

- Support for Adobe PDF Print Engine 5.x
- Support for new Windows OS systems: /
 - No support anymore for Windows 8.1 / 2016 / 2012 R2 / 2012
- SureColor SC-P-75X0/95X0: new “adjust ink density”
 - Media > PRINTER & WORKFLOW SETTINGS

Ink density adjustment

  %

- Use case: improve the quality for **non-Epson media** types
 - E.g. can also be used to avoid wrinkles due to too much ink lay down

Pack Proof 23.03 – New features

- Procedure:
 1. Try a standard media type
 2. Choose the closest match (press sample)
 3. Fine-tune with the Ink Density Adjustment option

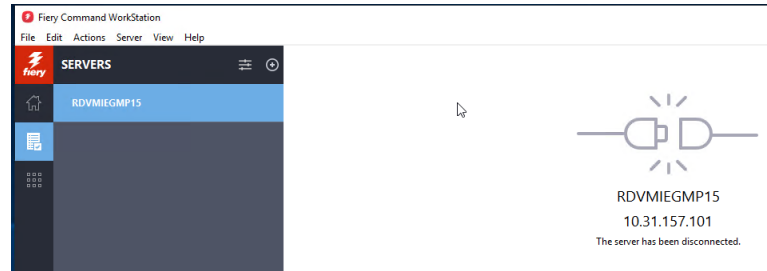

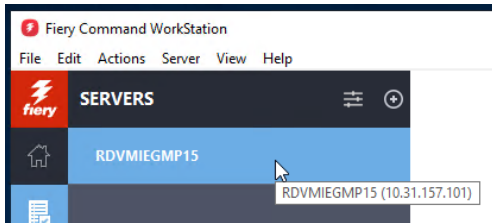

Range: -80 to 50

- Note: overwrites the TIL of the EPL!

Pack Proof 23.03 – New features
