How to Evaluate the Gradient

01 - 2020

1. Gradient

To judge the print quality one important aspect is the quality of the gradient. It needs to be smooth, without tonal jumps and homogeneous. Here are examples what is okay and what is not okay.

Fade	
Ok	Not ok
<div><div><div>_FADE85</div><div>_FADE75</div><div>_FADE65</div></div></div>	<div><div><div>_FADE85</div><div>_FADE75</div><div>_FADE65</div></div></div>
