Message

Hi John!  
Since this is for GET SET energy drinks, I think you're more suitable to approve this ...

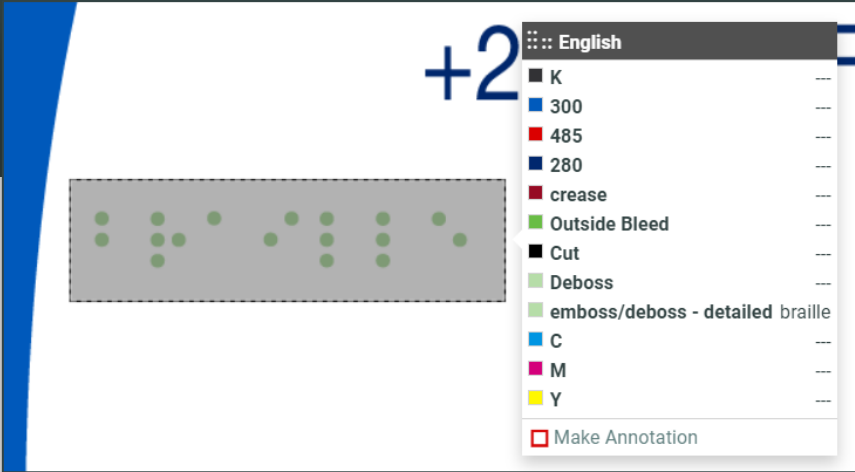

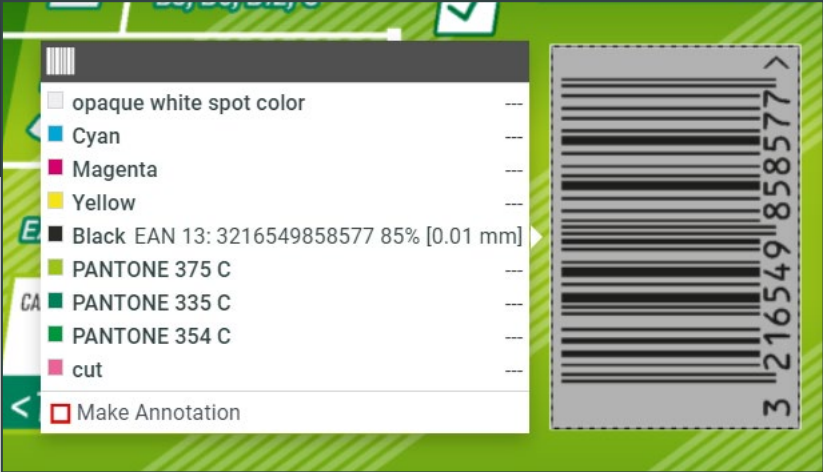

Request Approval but keep me as an approver

Cancel Forward Approval

As an approver, it's now possible to forward the approval to another user or email address. Now this person will be invited and becomes responsible for the approval in your stead.

# Barcode & Braille Support

The viewer has gained two more inspection tools! You can now analyze barcodes and braille on your 2D artworks.

# Customized Email Notifications

Customize your own email notifications with thumbnails of the uploaded documents!

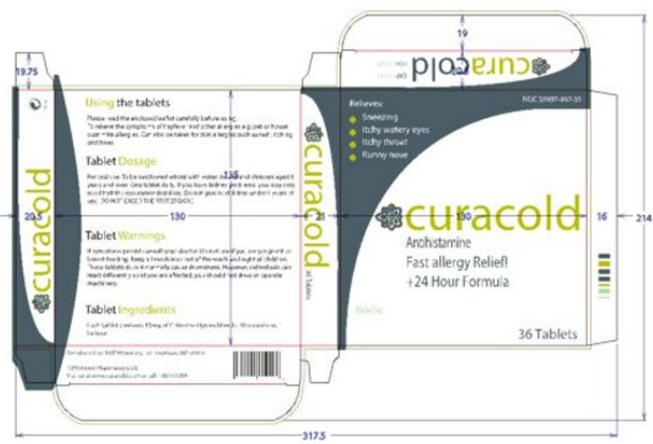

Customize everything down to the fields and colors to give your customers a “tailored” experience.

Super Graphics

Please approve the following document:

**Document Name:** Curacold Antihistimine.pdf

**Due Date:** Jul 22 2019 17:00

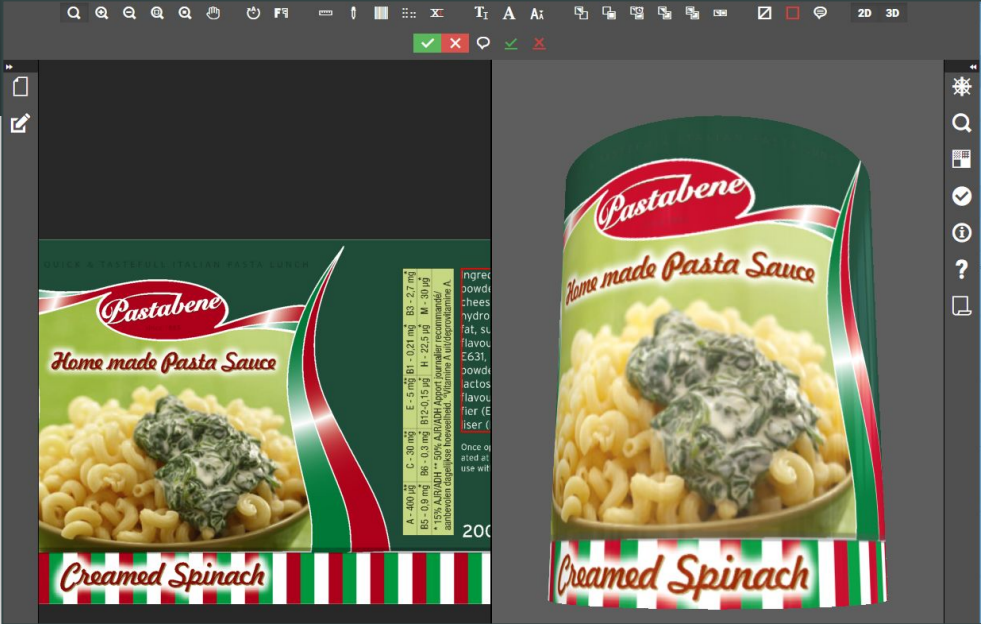

The thumbnail shows a 3D rendering of a Curacold Antihistimine box. The box is white with a dark blue and green design. The text on the box includes: "curacold", "Anzhistamine", "Fast allergy Relief", "+24 Hour Formula", and "36 Tablets". There are also dimensions: 19.75, 19, 130, 16, 214, and 317.5. A "View Document" button is located below the thumbnail.

KADA is a site powered by [Esko Cloud](#). After clicking the button above, sign in with your EskoID.

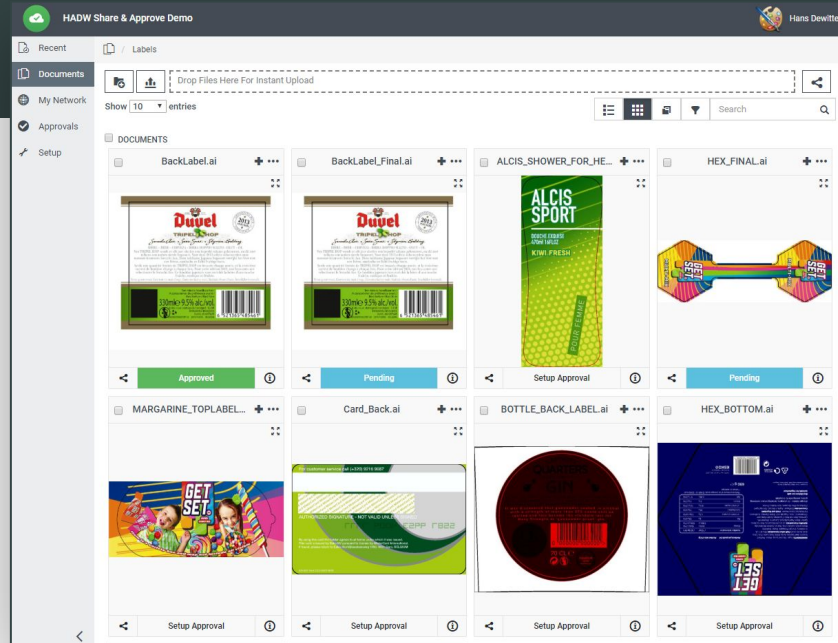

# 3D View Persistence

Save the “Setup” for 3D files so that your customers don’t have to do it and immediately see the file in full glory!

# Grid View

A new more visual way of seeing your uploaded documents. Colors indicate the approval state.

# Rename/Move Documents

It's now possible to move or rename documents. No need to re-upload these again!

# User Experience

Various small interface improvements were made in order to provide a better user experience to share documents, setup 3D assemblies, etc.
