What's New in Store Visualizer 23.03?

Susie Stitzel

Director of Product Management

March 28, 2023

Current system support

Windows 11

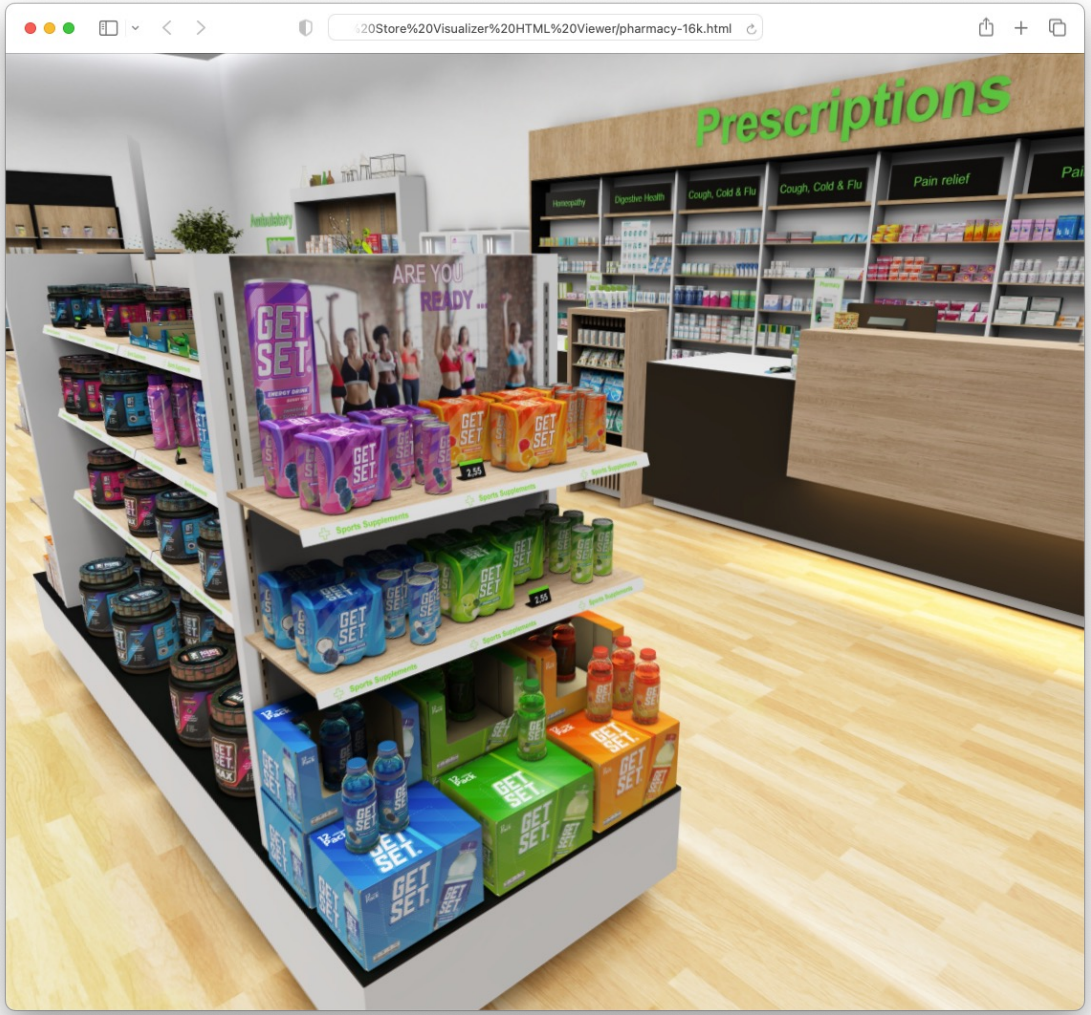
macOS Ventura

Windows	Windows 10, Windows 11
macOS	10.15 (Catalina), 11 (Big Sur), 12 (Monterey), 13 (Ventura)

ESKO

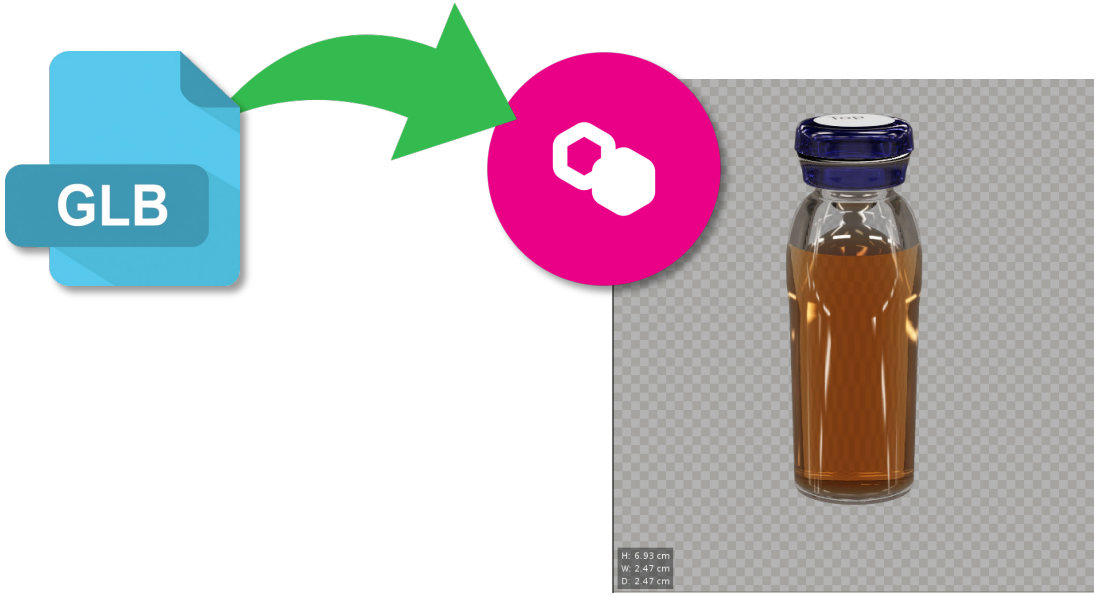
Easy Sharing

- Export a virtual store or shelf set as a self-contained HTML file for easy sharing with others
- IT-friendly viewing in a standard web browser – no special software required!



Support for glTF

- Import GLB files from Studio or other 3rd party 3D modeling products
- Support for both GLB and glTF



Additional Enhancements

Improved Quality and User Experience

- “Automatic video memory optimizer” increases performance when hiding layers or switching variations
- Refractions now support larger 3D models
- Improved quality of reflections in legacy environments
- Improved rendering quality of normal and bump maps, reduces aliasing on embossing operations

Thank you!
