

What's new in Store Visualizer 18.1?

April 15, 2019

Susie Stitzel

Product Manager – Design & 3D Solutions

susie.stitzel@esko.com

Improved User Experience (UI/UX):

- Improved video memory management delivers **memory savings of up to 40%** without affecting quality
- Product Viewer optionally brings the product directly in front of the camera
- Touch based model browser to **create products and shelving while in touch mode**
