ESKO⬢

Metal Can Distortion
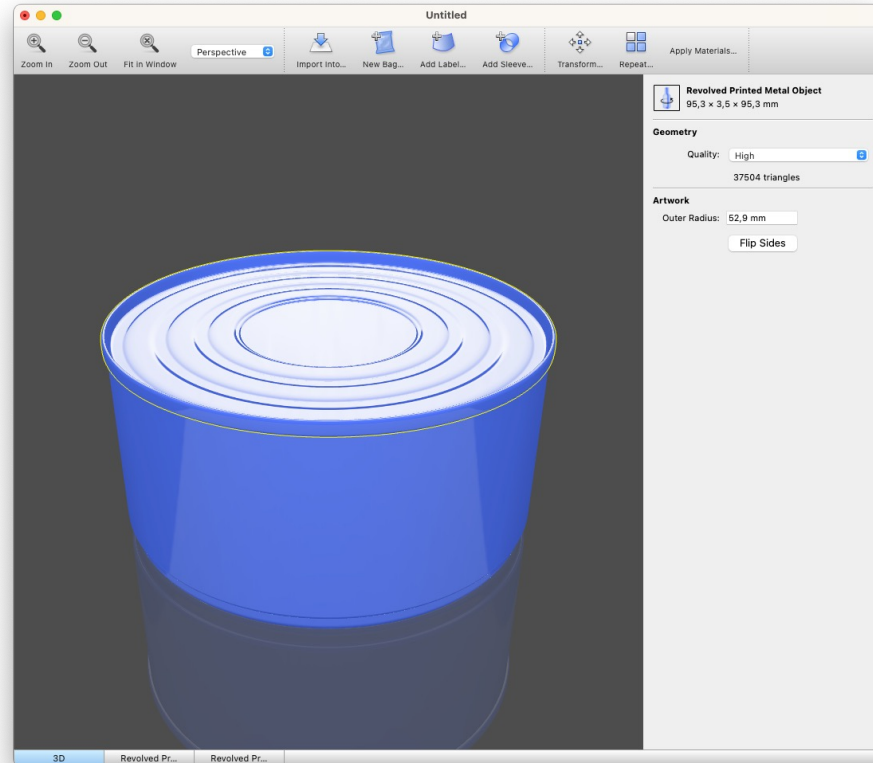

- A Studio story for ArtPro+ and Illustrator

For cans that are printed flat and deep drawn

ESKO

Create your shape with Toolkit

Revolve your can profile in Studio Toolkit

ESKO✪

Distort artwork in ArtPro+

Provide parameters to create a grid file

Distort artwork in ArtPro+
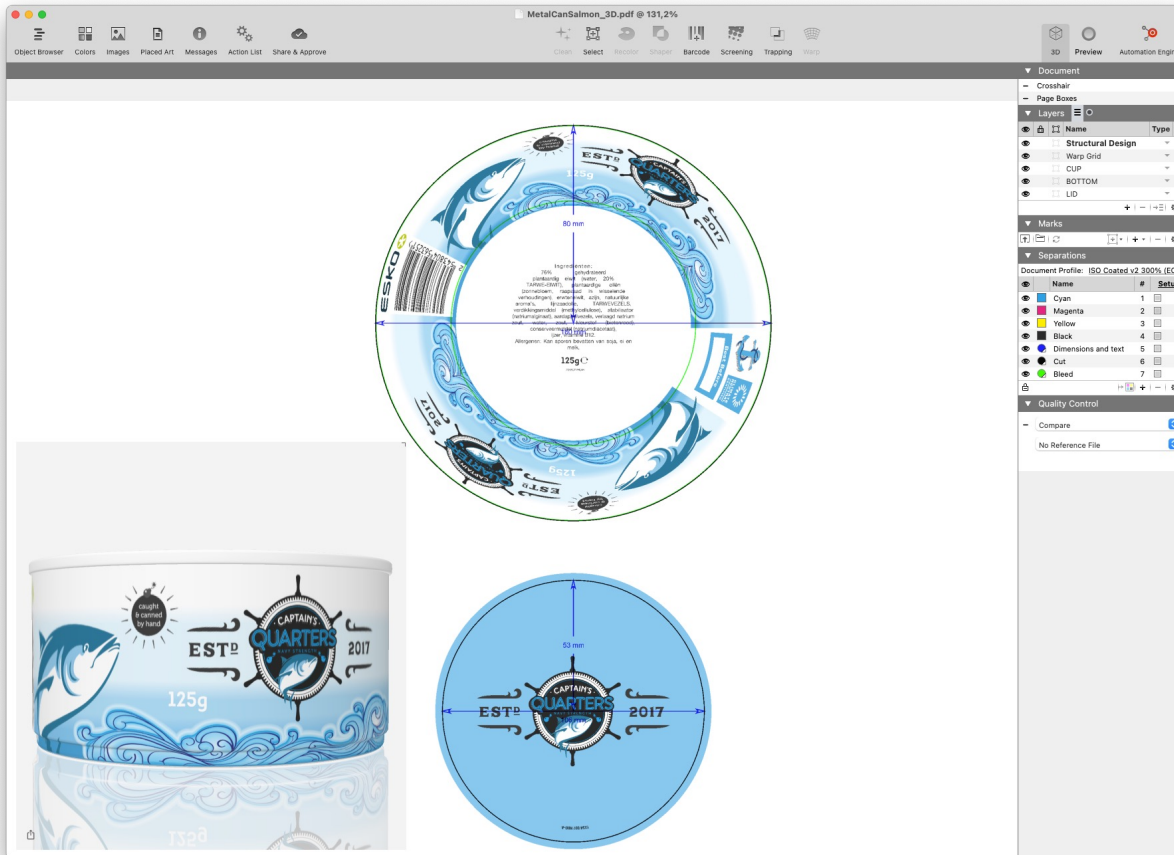

- Check and visualize in ArtPro+

- Render ray-traced images in Studio for Illustrator:

Material Presets in Toolkit

- Assign materials directly in Toolkit to "burn" them into the model

- Removes a round trip between Illustrator and Studio Toolkit

- Streamlined workflow saves time and promotes consistency
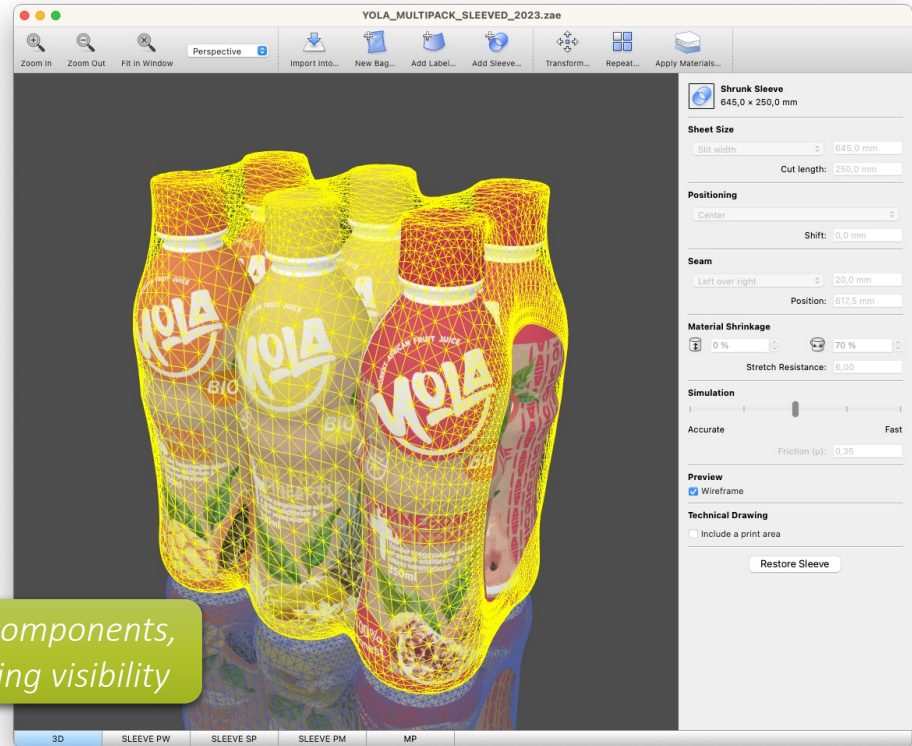

Send preview to Toolkit with a single click

Quickly send all artwork to Toolkit with a single command

Send preview to Toolkit with a single click

Send all artwork for all components, saving time and improving visibility

ESKO
