Increased Performance

■ On Export

- Exported 3DPDF, ZAE, GLB files with repeated models are significantly smaller
- Faster loading in Share & Approve and WebCenter 24.03

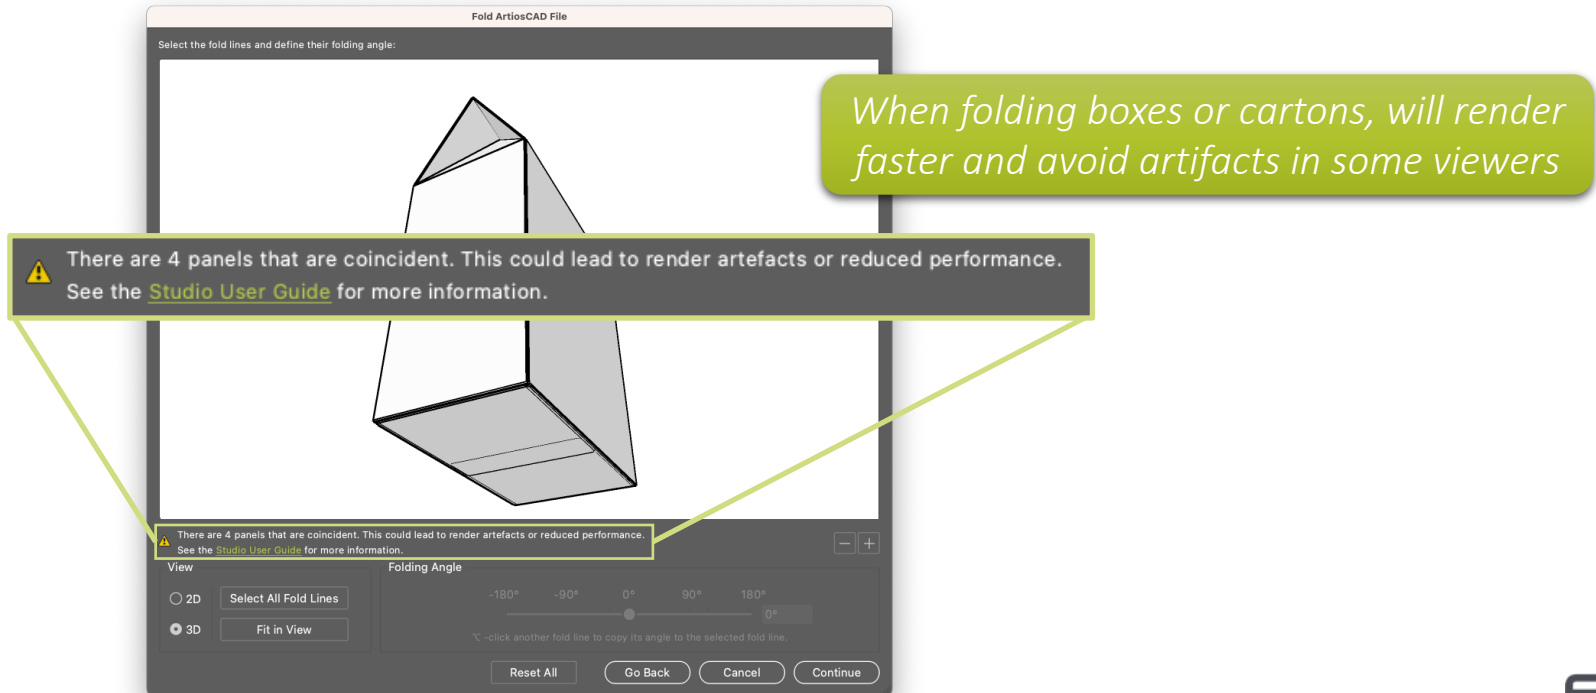

■ In Adobe Illustrator

- Faster rendering in both Designer and Visualizer Quality of scenes with many ArtiosCAD objects
- Other performance improvements in Visualizer quality, resulting in up to 3x higher frame-rates (depending on the scene):
 - 50% faster on scenes without transparent parts or holographics
 - 50% faster on scenes with flexibles or with many parts

Other Enhancements

- Hints in the Fold Tool and Studio Export dialogs to avoid coincident panels

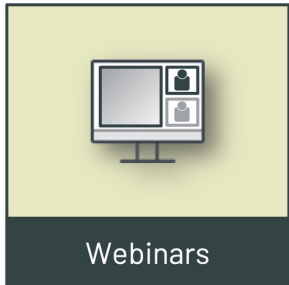

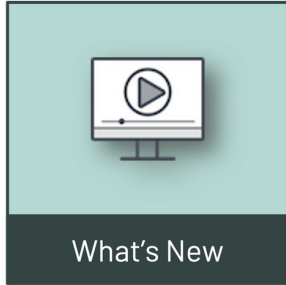

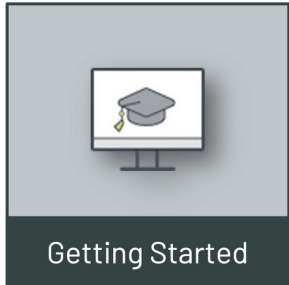

Other Enhancements

- All plug-ins: Improved support for UI scaling on higher resolution screens
- Offload rendering to Esko Cloud for Apple M1/M2 processors is now officially supported

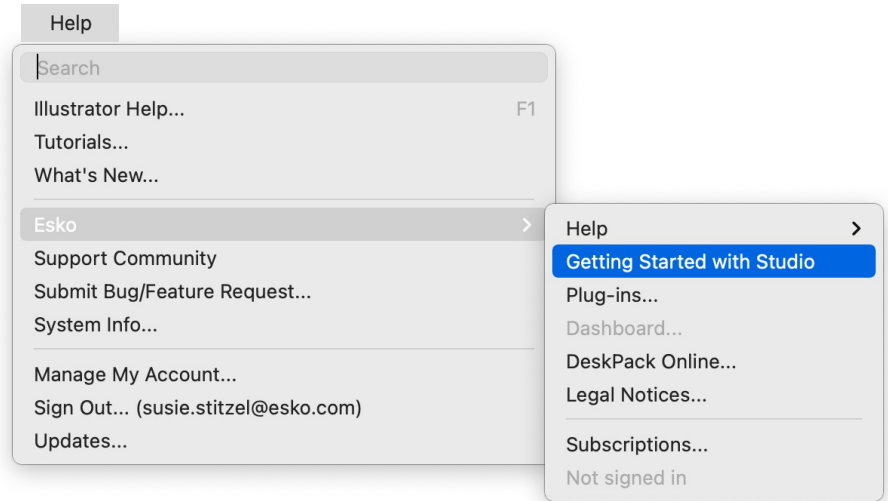

Don't forget the Studio eLearnings!
