

What's New in Studio 24.11

Current system support

macOS Sequoia

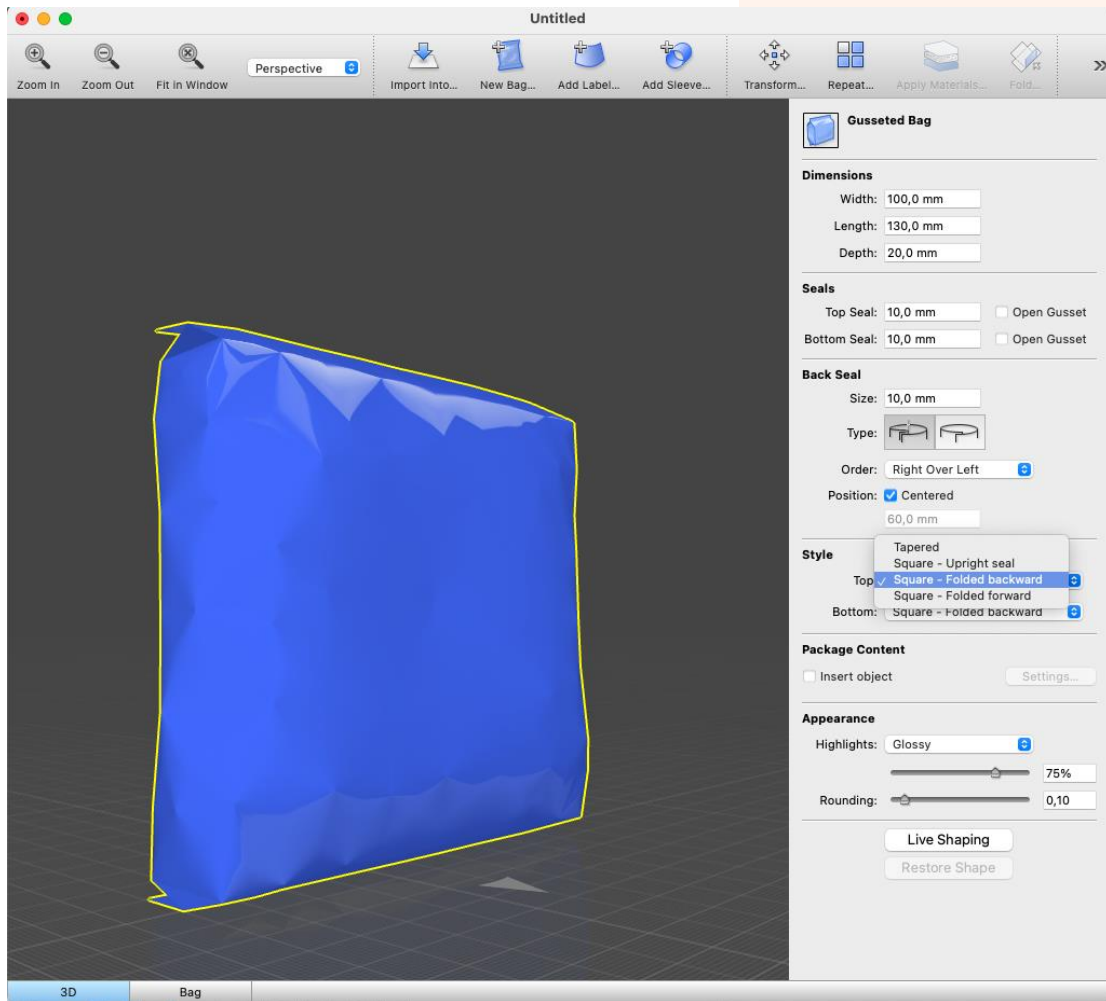

Adobe® Creative Cloud™

macOS	12 (Monterey), 13 (Ventura), 14 (Sonoma), 15 (Sequoia)
Windows	Windows 10, Windows 11
Adobe® Illustrator®	Illustrator 2023, 2024, 2025

Folded Seals in Studio Toolkit

- Flattening the top and bottom seals on flexible bags using Studio Toolkit's Live Shaping can be a tedious and manual process.
- New settings in Studio Toolkit can automatically fold seals backward or forward on Gusseted, Quattro Seal and Diaper bags, saving time and delivering consistent results.

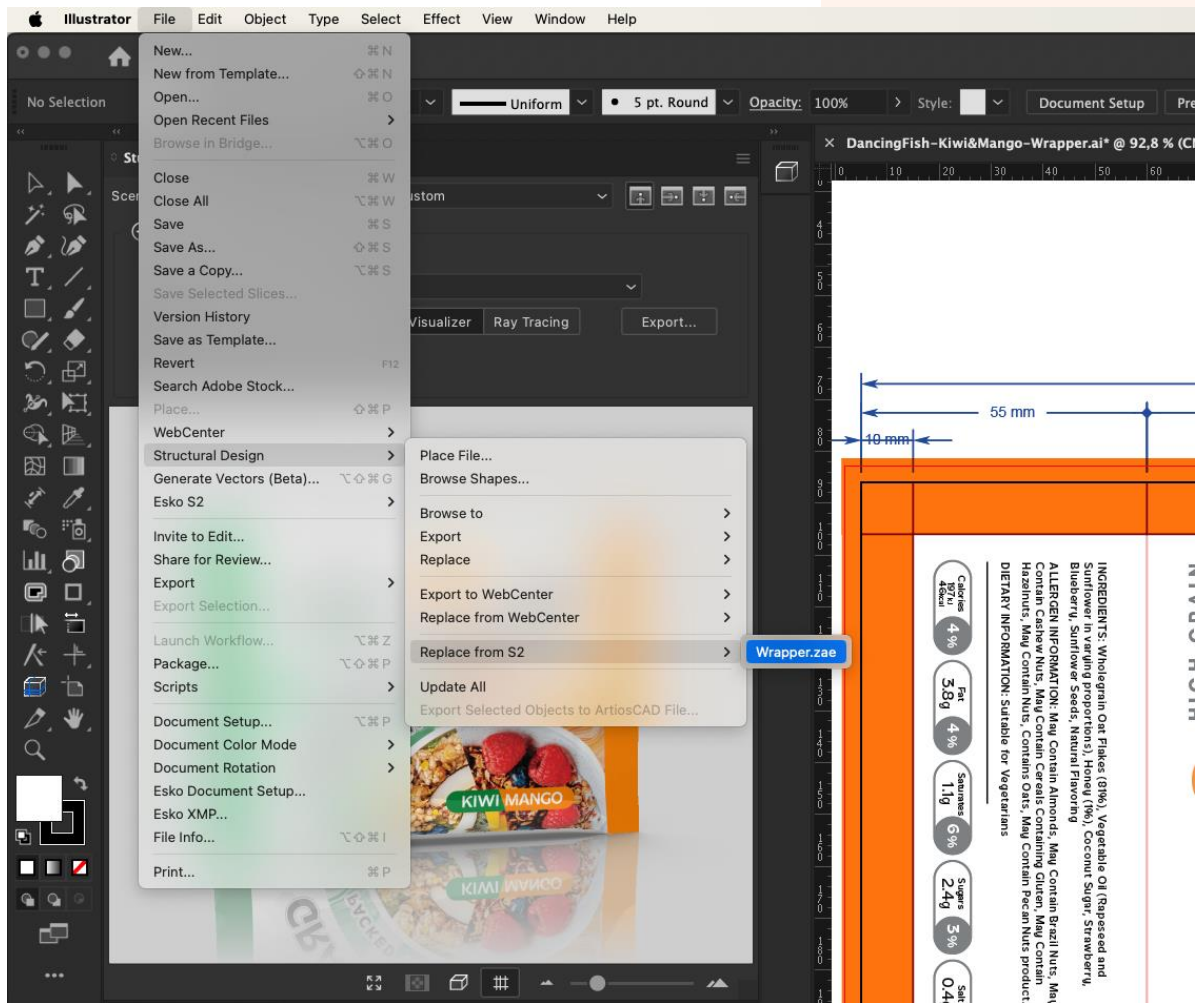

Working with Esko S2

Improve productivity and collaboration by centralizing Studio generated assets

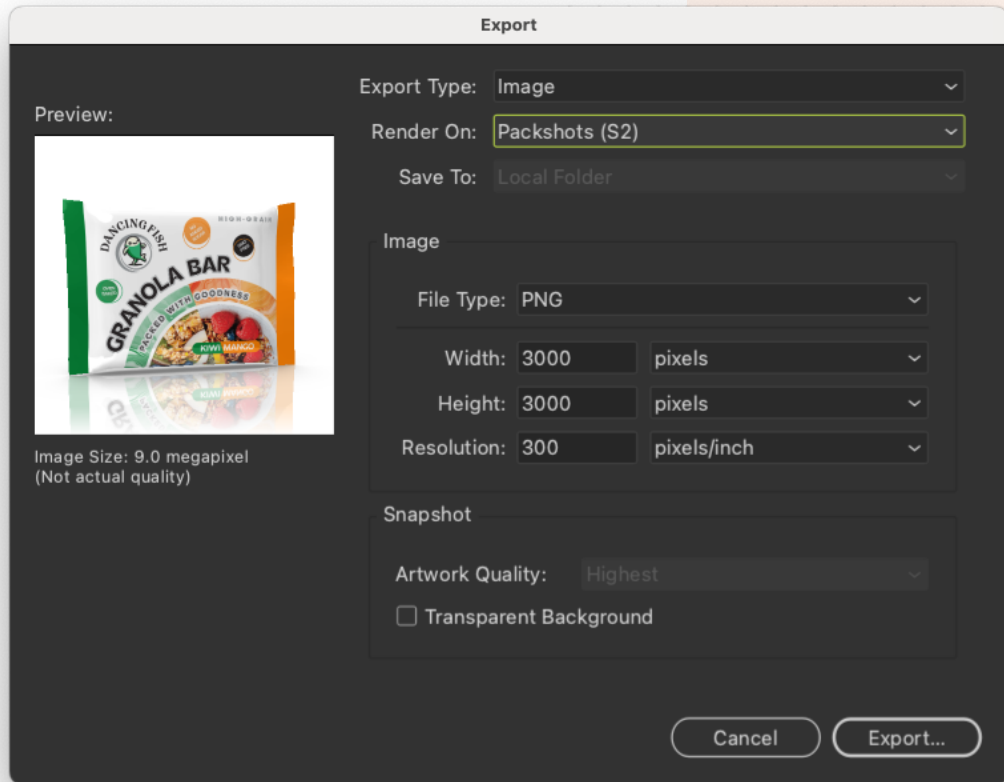

- Export images, Collada, GLB, U3D and 3D PDF files.
- Replace a structural design with another from Esko S2.

Working with Esko S2

- Offload the rendering of ray-traced images to S2's Automated Packshots.
- Previously known as rendering on Esko Cloud, we also improved the user experience by sharing credentials between all Esko S2 services.

Improved Quality

Studio Designer

- We've improved the quality of ray-traced renderings so that highlights are better preserved and images look sharper. These enhancements are particularly noticeable when using the material Cloudy Liquid.

Licensing

- In dark mode on Mac, starting Studio using a network license now shows the names of the users who occupy the licenses.

Don't forget the Studio eLearnings!
